WORKSHOP

11:00a – Workshop – Wildlife Crossings Master Plan Final Report Presentation – Amy Ramage

Amy Ramage, Engineering Manager, and Marcel Huijser (by phone) and Rob Ament with Western Transportation Institute, presented to the Board the Teton County Wildlife Crossings Master Plan. The Wildlife Crossings Plan was

called for within the Jackson/Teton Count Integrated Transportation Plan that was adopted in September 2015. Wildlife conservation is also an important directive within the Comprehensive Plan. Wildlife -vehicle collisions are a hazard to human safety, have a significant economic impact, and can have substantial detrimental effects to wildlife populations, migration and overall habitat conservation. The master plan process has provided a detailed cost-benefit analysis, prioritization process and scientific investigation for proposed wildlife-vehicle collision mitigation methods of various types (underpasses, overpasses, at-grade crossings, animal detection systems, fencing, retaining walls, lighting, speed limits) in areas throughout Teton County, and possible funding opportunities.

Discussion between the Board, Staff, and Consultants included confidence level of priority of highway section mitigation, WYDOT's involvement in the project, importance of fencing, traffic volumes, threshold of traffic volume, economics of mitigation options, difference between migration and winter populations, federal grants, funding opportunities, and detailed criteria for mitigation.

Public comment was given by Andy Schwartz – House District 23 Representative, and Kelly Lockhart.

Commissioner Rhea left the meeting at 12:07pm.

Public comment (continued) was given by Brian Nourai, Carlton Loewer, Horton Spitzer, Mac Dukart, Sandy Shuptrine, Sharon Mader, Megan Warren, and Henry Sollitt.
