

**TETON COUNTY, WYOMING**  
**FY 2017-2021 CAPITAL IMPROVEMENT PLAN**

<b>DEPARTMENT:</b>	Fire Department		<b>STRATEGIC PLAN GOAL:</b>	Organizational Excellence		
<b>PROJECT TITLE:</b>	Notification Pagers					
<b>PROJECT STATUS:</b>	unfunded					
<b>START/FINISH DATE:</b>	Jul 2016	Feb 2017				

**PROJECT MANAGER:** BC Clay

**DEPARTMENT PRIORITY:** High

**Note:** *Be sure to complete Project Cost Spreadsheets associated with the project request. In addition, include any other graphics that describe the project (i.e. site plan, map, etc.)*

**Project Description:**

Belt-clip type paging units are worn by JHF/EMS operational members for notification of emergency incidents. Many members are able to respond from work or from their home. These pagers are the notifying devices to immediately alert members for emergency call to service. Through normal wear and tear, pagers are damaged from impact, dirt and dust, damage to control knobs, water damage, and sometimes pagers are lost.

**Project Justification:**

To receive notification of emergency calls, all operational JHF/EMS members, when able to respond to service, carry a Motorola pager; Monitor IV, V, and VI versions are in use by membership across the county. Pager serial numbers are recorded in each member's personal equipment inventory. These compact units clip onto one's belt and weigh significantly less than a portable radio. The units can be set either to listen to all Fire/EMS radio traffic or to be set for selective notices for the member's response zone. Through normal wear and tear, the units suffer impact damage, water damage, damage controls, or are rarely, but sometimes accidentally lost. Although many old units have been phased out of service (no longer repairable), often replacements are needed when pagers are sent off for repair depleting Fire Admin inventory for 4-6 weeks. An anticipated 20 pagers will be assigned to new recruits with an optimum Fire Admin inventory number to be six pagers.

**Method for Estimating Cost:**

Requested pricing from vendors for Minitor VI pager units

**Project Status (As of January 1, 2015):**

unfunded

**Lifespan/Replacement Cycle and Other Special Considerations (Future Expansion/Special Features/Etc.):**

10 years
