Signature of Owner or Authorized Representative (Letter of Authorization Attached):

In order to be considered, please provide the following information with this application:

- ____ **Dates of Use** - Please provide the date range the structure will be erected (i.e. Nov. 1 – March 30) and the total number of days. If using the structure between November 1st and May 15th you will be required to provide engineering for the snow load requirements.
- ____ **Use of Structure** - Please provide a brief description of what the structure will be used for. If using for dining and/or food preparation, please complete a separate TC Health Department Application found on the Teton County Health Department website.
- ____ **Proposed Seating** – Please provide the total number of seats both in the proposed structure and in existing indoor space.
- ____ **Site Plan**- Please provide a site plan including: 1) location of temporary structure and all existing structures, 2) property lines, 3) adjacent structures, if located within 20 feet of the temporary structure and 4) any changes to existing parking.

- _____ **Floor Plan** – Please provide a floor plan including all interior dimensions, seating arrangements, aisles, occupant load, exiting requirements (2 exits required if there is 10 or more occupants), sinks & cooking appliances, lighting, heater locations, etc.
- _____ **Type of Structure**- Please provide the manufactures construction type. Flame resistant covering is required.
- _____ **Heating Source** - Please provide details of all proposed heating sources. Fuel fired heaters are not allowed in the structure, i.e. propane and natural gas, etc.
- _____ **Fire Department Review** – Please show compliance with all Fire Code requirements for temporary structures.
- _____ **Electrical Source** – Please submit a separate Electrical permit including: 1) Location of all electrical outlets (lighting, receptacle, equipment, and heat outlets) with pertinent branch circuit or feeder ampacity requirements, 2) circuit numbers and source location. If electric heat is installed, a load calculation is required. If more than one branch circuit is required, a feeder with a main disconnect and load center is required to feed all branch circuits is required.
- _____ **Restroom Locations** – Please provide the location of proposed and/or existing restrooms. Please note that if the existing restrooms are located more than 500 ft. from the structure, you will be required to provide portable restrooms.
- _____ **Code Requirements** – Please provide all Building Code Requirements including but not limited to Engineered Structural Loads, Snow Loads, Wind Loads, Hold Downs/Tie Downs, etc. If using the structure between November 1st and May 15th, you will be required to provide engineering from a Wyoming Licensed Engineer for snow load requirements.
- _____ **Exterior Lighting** – Please provide an Exterior Lighting Plan in conformance with Land Development Section Must meet the Land Development Regulations Section 5.3.1 Exterior Light Standards

Please allow a 2-week review period for your permit for first comments or acceptance. You will be notified when the permit has been accepted or you will be contacted if there is a deficiency or more information is required.
